**Activities and keywords:**  
Scandinavian Airlines is the Northern Europe's largest airline focusing on services, reliability, and simplicity. We fly six weekly flights from Bangkok to Copenhagen. Three additional flights from Bangkok to Stockholm are operated in winter. Our extensive network provides convenient connections to Scandinavian and European destinations from Copenhagen and Stockholm airports.

Onboard SAS' modern and spacious Airbus A340s, there are a number of specific features, for example, personal entertainment screens across all classes. SAS is also one of few airlines to offer a premium economy product, Economy Extra. In a separate cabin, Economy Extra passengers enjoy wider and more comfortable seats than in Economy, extended meal services, Business class check-in and priority boarding. SAS Business Sleeper offers the highest levels of comfort with lie-flat seats, the popular buffet bar with drinks, snacks and espresso machine, and a spacious restroom with feature windows.

SAS has introduced a new fare structure offering simplicity, flexibility and better value for money. New lower-priced Fixed tickets reward early bookings. Flexible tickets can be either changed or refunded at a cost. And Fully Flexible tickets offer passengers tickets with no restrictions. Best of all, we offer full combinability – possible to mix the three service classes and the three fare types of your choice.

**Background - Scandinavian Airlines**  
SAS is a consortium of the national airlines of Denmark, Norway and Sweden. The SAS Group comprises a number of businesses. More than 40 million passengers flew with the SAS group airlines – Scandinavian Airlines, airBaltic, Blue 1, Spanair and Widerøe during the year to July 2007. Operations to Bangkok were commenced in 1949. In 1959, SAS co-founded Thai Airways International Ltd., with the Thai Government through Airways Co., Ltd. (TAC) holding 70% shares and SAS 30%. SAS supplied aircrafts, management and training to the Thais in order to build THAI into an international reputable airline. SAS's 30% shareholding was released back

to Thai Government on 1977, but the close co-operation has continued. Both SAS and THAI are founding members of Star Alliance comprising of 17 international world-class airlines.
