Khun Jarunon Songseang
 Sale Project

Keywords:

All our homes are built to reflect the nature
 balance given the incorporation of advanced
 technology to help save on energy. The use of
 heat installations for roofing is aimed to help keep
 heat at bay. Ever wall is mounted with two levels
 of bricks to block out both heat and noise from
 surrounding environment. while light defecting
 windows are used to keep the house cool and
 comfortable throughout. The open plan design
 also allows for efficient ventilation, giving way to
 nature sunlight and breezes without the need for
 all-day-air-conditioning.
